## Using the wand to create professional curls

---

- Remove the wand from its heat resistant guard by gripping the cover and pulling to release
- Ensure that you wear the protective glove provided on the hand you will use to wind your hair around the wand
- Plug into the mains power and turn on by pressing and holding the power button once
- The power indicator will flash and then remain green once the LOW temperature is reached
- To select the MID or HIGH temperatures, press the power switch again until the selected temperature flashes. The indicator will remain green once the temperature is reached. You can now begin styling your hair.
- Always use the wand on clean, dry hair
- Should you require a higher or lower temperature during styling, press the power button again until the selected temperature flashes and remains green. Allow time for the wand to cool sufficiently
- Once you have finished styling, turn the power off by pressing the power button for two seconds until the green indicator light has gone off and unplug from the mains power supply.
- After use, replace the wand into its heat resistant guard
- Never wrap the cord around the wand
- Your Cloud Nine® wand is supplied with a standard two pin Europlug which has been fitted with a UK 3 pin adaptor. To use your Wand in a country outside of the UK, simply remove the screw that is positioned between the 3 pins and remove the adaptor from the 2 pin plug.

### General wand safety

Your wand can get incredibly hot so you really must be careful when using it.

Do not touch the wand barrel when it is switched on.

Keep hairsprays and styling aids at a safe distance away from your wand.

Always wear the protective glove when using your wand on the hand which you use to wind the hair around the barrel of the wand.

### Safety features

Hibernation mode - The intelligent sleep technology within the wand will automatically work when it has been switched on but not used for a period of 30 minutes. Once in hibernation mode you'll notice that the temperature panel will occasionally flash a green light to remind you. However during this mode the wand will cool down. When you're ready to use your wand again simply switch it off and back on again.
